INSTRUCTION FOR WORKSHOP PRESENTERS

Workshop Set-Up Overview

- Each workshop room will have AV equipment that supports projection and screen, PA system and one hand held microphone.

- There will also be a remote clicker in room, which has a USB connection.

- The room **will not be equipped** with a presentation laptop - please always use your own.

- HDMI cable will be available for connection to the projection.

- WI-FI will be available in all conference areas.

Other information

- There will be one technician on site for all workshop rooms - if you need help, they will be available.

- USB-C to HDMI reduction will be available for loan at registration.

- Workshop rooms are set in theater-style seating.
